Consultation:

Image Analysis Group, Livivos, Novo Nordisk, PharmaNest,
SoQut

Stockholder:

Pfizer
AutonomUS
Livivos (*stock options*)

Approach

- QUIC Plan: Clinical care pipeline (indications → interpretation)
White Paper Publication
- The Problem: **Lack of consensus** as to what should be reported:
e.g. – Biomarker name Acquisition parameters
 Vendor Reported values
 Model Cutoffs
 Coil/probe Interpretation
- Solution: Conduct Delphi Study (expected ~ 4 rounds)
 Include relevant stakeholders
 Invite Liver Forum Radiology Committee
 Invite Pharma and Device Industry representatives
